

Scientific Computing Master's Program

Request Academic Credit for SCMP 5970-001 Master's Thesis Research

SCMP 5970 Thesis Research can be a valuable enhancement allowing the pursuit of a specific topic of interest not available in regularly offered courses. If you are interested in completing a thesis, the first task is to formulate an idea for the thesis. Then find a professor in a related field who thinks it is a worthwhile project and will take the responsibility of supervising the project. The **Thesis Advisor** will provide guidance and take ultimate responsibility for your grade.

Master's thesis projects are limited to 2 courses units and receive a letter grade.

Brief Abstract

Name _____ Date _____
